

FOR IMMEDIATE RELEASE

19-Oct-2015

One-of-a-kind ACL 360 Roller™ Latest in Elation ACL Series of Narrow-beam Effect Lights

The new ACL 360 Roller™ from Elation Professional is a unique 4-bar moving head luminaire that casts a stunning array of continuous 360° high-speed multi-colored effects and is the newest luminaire in Elation's ACL Series of high-output narrow-beam LED effect lights.

The ACL 360 Roller houses 20x 15W RGBW 4-in-1 LEDs positioned equally across four bars and features fast and precise 16-bit continuous 360° pan and tilt rotation, perfect for adding eye-catching ACL beam looks to any stage, show or venue. Its advanced collimator optic lens produces a laser-like homogenized 4° color-changing beam from each LED, which combined produce a 21° beam angle from each bar.

Individual pixel control gives greater design options and built-in effect / chase macros make the unit quick to program when needed. Strobe effects and full-range dimming with dimming curve effects add to the design possibilities.

The ACL 360 Roller delivers an output of 17,700 LUX @ 6.6' (2m) yet consumes a low 280W of max power. All fixtures in the ACL Series operate flicker free for use in TV and other broadcast applications and a long LED life rating means service intervals are few and far between.

The ACL 360 Roller is controllable via 3 DMX modes (17/19/95 channels) and the unit is also RDM (Remote Device Management), KlingNet™ or Art-Net controllable. It comes with a host of standard features like 3/5-pin XLR connections, powerCON in/out connections and RJ45 Ethernet in/out connections. A 6-button touch control panel with a full color 180° reversible menu display makes for easy navigation through DMX and manual settings and an auto-sensing power supply covers worldwide voltages and frequencies.

The ACL 360 Roller measures 18.9" x 10.2" x 21.3" / 480.7 x 260 x 541 mm (LxWxH) and weighs 44.0 lbs. (20 kg). It joins five other models available in the ACL Series: ACL PAR 200™, ACL BAR™, ACL CURTAIN™, ACL 360 BAR™ and ACL 360 MATRIX™.

About Elation Professional

Elation Professional is one of the world's leading lighting and visual solutions providers and is the global brand of Elation Lighting. Founded in 1992 and headquartered in Los Angeles, with European sales, distribution and support based in The
