

FOR IMMEDIATE RELEASE

25-June-2015

ACL Series™: New energy-efficient line of high-output narrow-beam LED effect lights from Elation Professional

With the new ACL Series™, Elation Professional is giving the industry a whole new meaning to ACL. Elation has taken the intensity of a tight ACL beam and repackaged it in a versatile line of Advanced Collimator Lens effects, perfect for adding those eye-catching ACL beam looks to any stage, show or venue. Five models are available - ACL PAR 200™, ACL BAR™, ACL CURTAIN™, ACL 360 BAR™ and ACL 360 MATRIX™.

The ACL Series features a new highly-advanced collimator lens optic, the largest single multi-chip LED lens optic to date at the same size of a PAR 20 lamp. Using the latest high-output RGBW 15W multi-chip LED, its wide optical design emits a laser-like yet dense homogenized 4-degree color-changing beam from each lens.

Each unit in the series offers individual pixel control for greater design options along with built-in effect / chase macros for quick programming when needed. Strobe effects and full-range dimming with dimming curve effects add to the design possibilities. The ACL BAR and ACL CURTAIN can also be used as a wash fixture using an included removable frost filter and glare shield.

ACL PAR 200™: The ACL PAR 200 is a versatile PAR luminaire featuring (7) individual 15W RGBW 4-in-1 LEDs and new advanced collimator optic lens. Its compact size makes for a variety of rigging options and it consumes a low 135W of max power.

ACL BAR™: The ACL BAR is a versatile bar luminaire featuring (7) individual 15W RGBW 4-in-1 LEDs and new advanced collimator optic lens. Useful as a pixel bar for displaying imagery or as a wash luminaire for floodlighting surfaces and stages, it consumes a low 135W of max power.

ACL CURTAIN™: The ACL CURTAIN is a versatile batten luminaire featuring (14) individual 15W RGBW 4-in-1 LEDs and new advanced collimator optic lens. It has flexible use as a pixel strip light or wash light and consumes a low 240W of max power.

ACL 360 BAR™: The ACL 360 BAR is a versatile moving head effect luminaire featuring (7) individual 15W RGBW 4-in-1 LEDs and new advanced collimator optic lens. It features fast and precise 16-bit continuous full 360° pan and tilt rotation on both pan and tilt for dynamic movement effects and consumes a low 135W of max power.

ACL 360 MATRIX™: The ACL 360 MATRIX is a versatile moving head effect luminaire featuring (25) individual 15W RGBW 4-in-1 LEDs and new advanced collimator optic lens. It features fast and precise 16-bit continuous full 360° pan and tilt rotation on both pan and tilt for dynamic movement effects and consumes a max power of 425W.

FOR IMMEDIATE RELEASE

All fixtures in the ACL Series are DMX, RDM or Art-NET controllable and come with a host of standard features like 3/5-pin XLR connections, powerCON in/out connections and RJ45 Ethernet in/out connections. A 6-button touch control panel with a full color 180° reversible menu display makes for easy navigation through DMX and manual settings and an auto-sensing power supply covers worldwide voltages and frequencies.

The ACL Series operates flicker free for use in TV and other broadcast applications and a long LED life rating means service intervals are few and far between. The ACL Series offers all the benefits of LED like greater reliability, less maintenance and increased energy efficiency and is an excellent example of Elation's continued commitment to providing the best performance / best ROI solutions.

About Elation Professional

Elation Professional is one of the world's leading lighting and visual solutions providers and is the global brand of Elation Lighting. Founded in 1992 and headquartered in Los Angeles, with European sales, distribution and support based in The Netherlands, Elation designs and manufactures a comprehensive range of innovative yet affordable lighting and video products that are distributed through a global network of dealers and distributors. Made up of a spirited team of dedicated personnel, Elation is setting new efficiency and performance standards in Platinum lamp and LED technology and is acknowledged for a comprehensive commitment to Total Support. As a company in expansion with a presence in a growing variety of market segments, chances are you've experienced Elation lighting at a concert, special event, TV, theater, late night venue, House of Worship, theme park, cruise ship, exhibition, architectural space or elsewhere.
