## **Elation EWDMX IP a Reliable Wireless DMX Transmitter/Receiver**

The EWDMX IP Transceiver is a wireless DMX transmitter/receiver and the next generation of powerful wireless DMX control from Elation Professional. Compatible with all previous Elation EWDMX and W-DMX products, this new unit offers full RDM support and comes in an IP65-rated enclosure for outdoor use.

The EWDMX IP uses W-DMX G4 protocol for reliable dual band operation and is an easy way to connect remote fixtures to a DMX system. It offers a fast and easy way of connecting and setting up a lighting system and is especially useful for a lighting system with hard to get at fixtures as no cables are required.

The EWDMX IP saves time and reduces expensive downtime by eliminating the hassle of having to run 100's of meters of cable, deal with loose connections or have riggers fasten and troubleshoot cables. The EWDMX facilitates both set up of the lighting system and lighting programming. The EWDMX IP also supports the industry-standard RDM protocol for information feedback and monitoring, allowing users to gather lighting fixture data remotely for immediate attention.

Even with a high level of wireless traffic, the EWDMX IP works reliably thanks to Adaptive Frequency Hopping technology, which only uses channels not used by other W-LAN and/or any other products on the 2.45 GHz or 5.8GHz band. The result is a much more reliable connection without interference.

### **About Elation Professional**

Elation Professional is one of the world's leading lighting and visual solutions providers and is the global brand of Elation Lighting. Founded in 1992 and headquartered in Los Angeles, with European sales, distribution and support based in The Netherlands, Elation designs and manufactures a comprehensive range of innovative yet affordable lighting and video products that are distributed through a global network of dealers and distributors. Made up of a spirited team of dedicated personnel, Elation is setting new efficiency and performance standards in Platinum lamp and LED technology and is acknowledged for a comprehensive commitment to Total Support. As a company in expansion with a presence in a growing variety of market segments, chances are you've experienced Elation lighting at a concert, special event, TV, theater, late night venue, House of Worship, theme park, cruise ship, exhibition, architectural space or elsewhere.
