Elation Adds World Premiere Product Launches for LDI

Elation Professional has added five new World Premiere debuts to its list of products to show at LDI 2019 in Las Vegas. Showing November 22-24 at Elation **Booth #602** for the first time anywhere will be new moving head fixtures in Elation's award-winning Artiste, Proteus and Fuze product lines, new professional market luminaires that continue the company's efforts to bring innovation and best-in-class ROI products to the market.

Artiste Mondrian™: The Artiste Mondrian™ is the brightest, full-featured LED Profile FX fixture Elation has produced to date. It offers extreme output with high center intensity and narrow-beam angles, a comprehensive FX package with endless framing, and a wide color-mixing gamut through its variable SpectraColor color mixing system. Providing over 50,000 lumens from an efficient 950W LED engine, the Mondrian features a large 226mm (8 ¾") front lens and has the power to cut through at great distances.

Artiste Rembrandt™: The Artiste Rembrandt™ is an extremely bright, full-featured LED Wash fixture with endless framing that offers outstanding output, optimized wash field and a wide color-mixing gamut through its variable SpectraColor engine. Providing up to 51,000 lumens from an efficient 950W LED engine, the Rembrandt is the ideal fixture for any application requiring superior wash output, bright and powerful beams, and quiet operation, as well as stunning colors.

Proteus Lucius™: The Proteus Lucius™ is a powerful, featured packed yet compact IP65-rated LED Profile fixture with framing that offers outstanding projection qualities to cut through in any environment. Providing up to 31,000 lumens from its custom-designed hotspot 580W LED engine, it houses fast zoom optics and comprehensive FX package all wrapped in an impressively compact fixture design to make a statement on any stage.

Fuze Wash FR™: The Fuze Wash FR™ is an automated LED Fresnel wash fixture with framing designed for theater, television and a wide array of precision lighting applications. A 92 CRI engine utilizes a homogenized full spectrum RGBMA LED array. The carefully tuned LEDs ensure accurate color reproduction while delivering a powerful output of 14,000 lumens @ 6500K. It delivers outstanding colors, variable whites from 2400 to 8500K, a wide zoom range and framing beam control. It is ideal when a soft yet defined field is required.

Fuze SFX™: The Fuze SFX™ is a new concept LED Spot FX fixture designed for a variety of applications requiring a compact and powerful multi-purpose luminaire. The SFX is capable of projecting tight beams to wide washes using a highly efficient optical design while providing over 12,000 lumens of output from its 300W white LED engine. Seamless CMY color-mixing plus color wheel, variable frost, gobos and zoom allow for a variety of effect options.
