# Elation Brings Back Popular Coffee Break Livestream

Elation's European office is pleased to announce the return of *The Elation Coffee Break*, a Facebook Livestream series that takes an up-close look at some of the company's most popular products and product families.

Each episode goes beyond spec sheets and standard product overviews, sharing practical tips and tricks that lighting professionals can directly apply in real-world scenarios. The sessions are open to everyone and include live questions from viewers.

## FOR IMMEDIATE RELEASE

Hosted by Elation's Alistair Smyth and Frederik Afif, the first episode will stream live on **Thursday, January 8, at 11 :00 a.m. CET** on Elation Europe's Facebook page. No registration is required. [www.facebook.com/ELATION.Pro.Europe/live/](http://www.facebook.com/ELATION.Pro.Europe/live/)

The first Coffee Break episode will explore the innovative qualities of the [REBEL PROFILE](#), a powerful and compact LED profile moving head in Elation's bold new breed of intelligent lighting. Designed for attention-grabbing visuals in both indoor and outdoor applications, REBEL invites lighting professionals to break the rules and blaze their own path.

The session will dive deep into real-life use cases, clever workflows, and hidden features you won't find listed on any spec sheet — focusing on what truly delivers value on site. While technically in-depth, the Coffee Break remains hands-on and practice-oriented, translating advanced capabilities into tangible benefits for designers, programmers, and operators.

The Elation Coffee Break series continues on **Thursday, January 22 at 11:00 a.m. CET**, with a closer look at the award-winning [PARAGON](#) Series of cutting-edge LED profile luminaires. Additional livestreams will follow every two to three weeks.

Mark your calendars, grab your favorite cup of coffee, and join us on January 8!
