February 4th *Elation Coffee Break*: Evolution of the Ellipsoidal

Join hosts Alistair Smyth and Frederik Afif on a February 4th *Elation Coffee Break* as they examine three modern-day ellipsoidals from Elation Professional.

With the [WW Profile HP™](#) and [CW Profile HP™](#) the traditional tungsten Leko has been re-engineered from the ground up with efficient LED engines, while the [Fuze Profile CW™](#) takes the evolution even further with more features and fully automated performance. These LED framing fixtures, all with high CRI and outstanding output, are ideal for applications where an ellipsoidal fixture of outstanding quality is required.

The *Elation Coffee Break* on modern-day ellipsoidals will air live on Thursday, **February 4th at 11:00 a.m. CEST**. Tune in at www.facebook.com/ELATION.Pro.Europe/live/. It's easy and no registration is required.

The Elation Coffee Break is an online presentation series from Elation's European office in Kerkrade, the Netherlands that takes an up-close look at some of the company's most popular product series. To view previous *Elation Coffee Break* webinars, please visit www.facebook.com/ELATION.Pro.Europe/live/.

About Elation Professional

Based in California with facilities in Florida and Mexico City, as well as European offices in The Netherlands, Elation designs and manufactures a comprehensive range of innovative lighting products known for its superior performance, excellent efficiency, and outstanding price: value ratio, all backed by a hard-earned reputation for Total Support. Elation also offers an advanced line of lighting control products through Obsidian Control Systems, as well as a full range of dependable specialty effects called Magmatic. Our mission has always been simple: to provide best-in-class products and service while offering the best value: performance ratio in the industry. Elation products continue to be a part of the industry's most exciting projects across the globe. We invite you to take a closer look at www.elationlighting.com
