

FOR IMMEDIATE RELEASE

31-Jan-2020

## New Artiste™, Fuze™ luminaires to highlight 2020 ISE for Elation

### Obsidian Control Systems to demonstrate creative possibilities of new DYLOS™ pixel composer

Elation continues to expand its award-winning **Artiste™** series of theatrical-grade moving heads, as well as its creative and high-value **Fuze™** line, and invites lighting professionals to see both February 11-14 at **Stand 7-S209** at the ISE show in Amsterdam. Obsidian Control Systems invites designers, programmers and operators to check out **DYLOS™**, a new pixel composer that offers all-new creative possibilities in pixel-mapping.

Visit [www.iseurope.org](http://www.iseurope.org) and register for free using Elation invitation code 707011.

**Artiste Mondrian™:** The Artiste Mondrian™ is the brightest, full-featured LED Profile FX fixture Elation has produced to date. It offers extreme output with high center intensity and narrow-beam angles, a comprehensive FX package with endless framing, and a wide color-mixing gamut through its variable SpectraColor color mixing system. Providing over 50,000 lumens from an efficient 950W LED engine, the Mondrian features a large 226mm (8 7/8") front lens and has the power to cut through at great distances.

**Artiste Rembrandt™:** The Artiste Rembrandt is an extremely bright, full-featured LED Wash fixture with endless framing that offers outstanding output, optimized wash field and a wide color-mixing gamut through its variable SpectraColor engine. Providing up to 51,000 lumens from an efficient 950W LED engine, the Rembrandt is the ideal fixture for any application requiring superior wash output, bright and powerful beams, and quiet operation, as well as stunning colors.

**Artiste Monet™:** Used in top venues such as The Metropolitan Opera in New York City, the Artiste Monet is a 45,000-lumen LED Profile luminaire with innovative CMYRGB SpectraColor system. SpectraColor in combination with variable CTO produces colors that were previously impossible to achieve including rich saturates. A comprehensive FX package includes gobos, animation, prisms, dual frost and high-speed iris. It includes a wide zoom and full blackout, 4-blade framing system with unlimited indexing and continuous rotation control.

FOR IMMEDIATE RELEASE IMMEDIATE RELEASE

**Fuze Profile™:** Designed with both creativity and value in mind, the Fuze Profile™ is a full-color-spectrum, automated LED moving head with framing designed for precision lighting applications where beam control and high color quality is important. It features a carefully tuned RGBMA LED array with high CRI and is loaded with design features like zoom, two gobo wheels, animation wheel, frost, prism and full blackout framing system.

### **Obsidian Control Systems**

Obsidian Control Systems is pleased to be showing **DYLOS™**, a pixel composer that far exceeds the capabilities of regular pixel-mapping systems. DYLOS is a comprehensive toolset of dynamic fixture animation, exciting content generators and powerful media playback, easily accessible through an elegant and well-thought-out user interface. Lighting professionals are invited for a hands-on demo of the new creative possibilities with DYLOS.

All Obsidian lighting control systems run innovative **ONYX™** lighting control software. ONYX is a powerful yet easy-to-learn lighting control platform designed for both hardware consoles and PC systems. Obsidian Control Systems products are distributed exclusively by Elation Professional worldwide and are available in various sizes to accommodate any scale and budget.
