

FOR IMMEDIATE RELEASE

14-Jan-2019

Elation Innovation Coming to 2019 NAMM Show

Free Capture and ONYX training January 24th. RSVP info below

Visitors to the NAMM Show January 24-27 at the Anaheim Convention Center will be able to see some of Elation's latest lighting innovations at **Booth #11542** in **Hall A**. The NAMM Show is North America's largest trade show for music industry products and the perfect opportunity to talk to a qualified Elation professional about bringing your lighting system to the next level.

On display – and shipping from February – will be the much-talked-about **RAYZOR 760™**, a compact yet powerful LED wash effects luminaire with SparkLED™ technology. SparkLED™ consists of 28 individual white LEDs inside the front lens that creates a unique additional layer of effect. Driven by seven, independently controlled 60W RGBW LEDs, the RAYZOR 760 with wide zoom projects well-defined mid-air beams as well as an exceptionally even wash. Continuous pan & tilt rotation adds another layer of dynamic effect.

Featuring alongside the RAYZOR 760 will be the **Smarty Hybrid™**, a full-featured Spot/Beam/Wash fixture and the most compact CMY color mixing hybrid Elation has released to date. Features include motorized zoom, full CMY color mixing, linear CTO, 13 dichroic colors, two gobo wheels, prism overlay and more. Elation has introduced an Ultimate Warranty program on Smarty Hybrid that covers the first two years of operation or 6,000 hours of use, whichever comes first, and includes the efficient Philips™ MSD Platinum 200 Flex 280W lamp!

Also on show will be the new **Protron Eclipse™**, a high-powered and highly versatile hybrid LED luminaire that can multi-function as a bright blinder, powerful strobe, high-output wash light or creative eye candy effect in one. Featuring (96) 10W CREE RGBW 4-in1 LEDs with pixel zone control, strobe intensity, duration, rate and FX control, the Protron Eclipse can fill multiple requirements in the rig.

Obsidian Control Systems is pleased to announce that both the powerful NX 2™ and the portable NX Wing™ are now shipping and will showcase at NAMM. The **NX 2™** is the ultimate compact yet fully-integrated lighting controller with all the connectivity and power the ever-increasing size of shows demands. The **NX Wing™** is the complementary USB control surface to operate Obsidian Control Systems' ONYX platform on any PC system without compromise.

FOR IMMEDIATE RELEASE

Obsidian Control Systems is offering **Capture SOLO™** lighting design, documentation and visualization software free with any NX Series console purchased! Universally regarded as easy-to-use visualization software with a fast learning curve, Capture™ lets you work with lighting, video, laser, moving scenery and water elements to visualize your design and help sway clients.

Free Capture and ONYX training

Elation is also pleased to be offering free Capture and ONYX training sessions on January 24th at the NAMM show. The sessions will cover the basics of Capture 2018 and ONYX software and will be held from 10:30 am to 1:00 pm (Capture) and 2:00 pm-6:00 pm (ONYX). Computers will be provided for both training sessions. Spots are still available but filling up fast. For more info and to register, please visit <https://www.eventbrite.com/e/onyx-capture-training-namm-2019-tickets-54607213646>
