Experience Next-Level Lighting Control with Obsidian at InfoComm 2025

The Obsidian Control Systems team is excited to showcase the new **NXW** control wing at the InfoComm tradeshow, taking place June 11–13 at the Orange County Convention Center in Orlando. System integrators and lighting control specialists are invited to visit Obsidian at **Booth #7672** for a closer look at this exciting addition and much more.

NXW
The NXW is a sleek, portable, and full-featured PC control wing designed to deliver professional-grade ONYX operation via USB-C. Its responsive hardware surface brings the power of ONYX to any PC system, offering lighting operators the tools they need in a compact and intuitive form. From RGB-backlit motorized faders to customizable multi-function buttons, every detail is engineered for speed, precision, and creativity.

NXW Key Features:
- 10 Motorized Faders with RGB Backlight
- Low Latency Optical Buttons with RGB Backlight
- Programming Keypad + 10 Multi-function Buttons
- 4 RGB Parameter Encoders
- 4 Integrated DMX/RDM Ports
- Gigabit Network Port
- 16-Universe ONYX License (Upgradeable to 32, 64 and 128 via USB License Port)

NX Consoles, Wings, and USB Interfaces
Obsidian offers a complete line of **NX** consoles, wings, and USB interfaces for professional lighting control. Visitors to InfoComm can get hands-on with Obsidian hardware and PC systems, including the **NX2**, a fully integrated lighting controller powerful enough to handle a wide variety of complex productions yet small enough to offer true portability.

NETRON Data Distribution Solutions
Obsidian's popular and award-winning **NETRON** data distribution range, including a comprehensive line of smart, compact products tailored for system integrators and fixed installations, will also feature. The

lineup consists of ETL-approved devices—EtherDMX nodes, RDM/DMX splitters, and network switches—offering reliable and flexible data distribution for any project.

In addition, Obsidian will showcase the world's first IP66-rated data distribution range for entertainment environments. Available are a 6-port EtherDMX Node (**EN6 IP**), a 6-port DMX/RDM Splitter (**RDM6 IP**), and an 8-port managed POE Switch (**NS8 IP**). These rugged, award-winning units are designed for challenging conditions and feature a custom die-cast body, impact-resistant coating, IP-rated ports, and touch controls. The range delivers unmatched durability and is built on the trusted technology of Elation's market-leading IP-rated PROTEUS lighting fixtures and the NETRON data platform.

Join us for a hands-on look at what's next in show control technology. Don't miss the opportunity to explore the latest in lighting control and data distribution at **Obsidian Booth #7672**.
