Experience The Future of Lighting Control with Obsidian at LDI 2025

The Obsidian Control Systems team is excited to showcase the new **NX W** control wing at the upcoming LDI tradeshow, December 7-9 at the Las Vegas Convention Center. Lighting control specialists are invited to **Booth #3210** for an up-close look at this exciting new addition to the ONYX platform—and much more, including all-new preview products being shown for the first time anywhere!

NX W

The **NX W** is a sleek, portable, and full-featured PC control wing, designed to bring the power of ONYX to any system via USB-C. Its responsive hardware surface gives lighting operators everything they need in a compact, intuitive form. From RGB-backlit motorized faders to customizable multi-function buttons, every detail is engineered for speed, precision, and creative freedom.

NX W Key Features:

- 10 Motorized Faders with RGB Backlight
- Low Latency Optical Buttons with RGB Backlight
- Programming Keypad + 10 Multi-function Buttons
- 4 RGB Parameter Encoders
- 4 Integrated DMX/RDM Ports

- Gigabit Network Port
- 16-Universe ONYX License (Upgradeable to 32, 64 and 128 via USB License Port)

NX1-16 Console

Obsidian's modular NX1 console has been upgraded to handle 16 Universes – twice the power of the original model – providing ample headroom for a wide range of shows. Compact yet fully featured, the **NX1-16** delivers all the professional features of the ONYX platform in an ultra-compact housing and can be expanded with the NXX keypad and NXP motorized playback wing.

NETRON Data Distribution Solutions

Also on display will be Obsidian's popular and award-winning **NETRON** range, including the world's first IP66-rated data distribution products for entertainment environments. Rugged and reliable, these units feature custom die-cast bodies, impact-resistant coatings, IP-rated ports, and touch controls—designed for the toughest environments. IP-rated options include:

EN6 IP: 6-Port EtherDMX Node

RDM6 IP: 6-Port DMX/RDM Splitter

NS8 IP: 8-Port Managed POE Switch

Join us at **Obsidian Booth #3210** to learn how ONYX can improve your lighting control workflows and elevate productions of any scale.
