

FOR IMMEDIATE RELEASE

19-Feb-2019

Elation Fuze Pendant™ a versatile house and area lighting solution

Elation is pleased to offer a pendant version in its Fuze series of high performance, high-value LED luminaires. Now available is the color-changing Fuze Pendant™ LED wash light, an energy-efficient intelligent downlighting fixture that provides powerful illumination for a variety of house and area lighting applications. With its flexible design, this pendant light is at home in permanent installs as well as any temporary application like tradeshow, exhibitions and corporate events.

Housing a full spectrum 230W LED array, the Fuze Pendant produces vibrant colors while providing high CRI variable white tones to flood a space in hues of color or functionally wash a house of worship or other venue in shades of white light. The RGBWL LED emits a wide palette of colors, and with color temperature adjustment from 2,000 - 10,000K it also makes for an excellent color-matching unit.

Crisp whites with a high CRI, plus subtle pastels and powerful pure colors with 16-bit dimming, allow for a wide range of smooth illumination and dynamic effects for any environment. At up to 11,000 lumens, the Fuze Pendant is ideal for large areas and high-ceiling applications yet is compact enough to be adaptable to smaller spaces. A variety of dimming curve modes, virtual color wheels and strobe enhance its dynamic capabilities.

Featuring a compact and fanless design, the Fuze Pendant operates silently for use in noise sensitive environments. When used in broadcast situations, LED refresh rate frequency is remote adjustable to guarantee flicker-free operation.

FOR IMMEDIATE RELEASE

Pendant (included) and optional yoke or recessed ceiling options provide flexibility when finding the ideal mounting position. The included 45-degree lens plus a variety of available lens options (25-, 35-, 60-degree) allows for precise light distribution. Optional half and full snoot kits are available to position the beam even more precisely.

Industry standard power and DMX connections, plus included terminal block connections for power, emergency battery input and 0-10V control, support multiple permanent or temporary install requirements with a single product design. The Fuze Pendant can also receive wireless DMX via the integrated Elation E-FLY™ transceiver for easier setup with less cable mess.

Weighing just 15.8lbs. (7.2 kg) and drawing only 230W of max power, the Fuze Pendant makes a big impact with a small footprint and offers all the benefits of LED like greater reliability, less maintenance and increased energy efficiency for a lower cost of ownership.

About Elation Professional

Based in California with facilities in Florida and Mexico City, as well as European offices in The Netherlands, Elation designs and manufactures a comprehensive range of innovative lighting and video products known for its superior performance, excellent efficiency, and outstanding price:value ratio, all backed by a hard-earned reputation for Total Support. Through nearly three decades of intelligent lighting development, our mission has always been simple: to provide best-in-class products and service while offering the best value:performance ratio in the industry, helping show designers and producers achieve their vision. From discharge to LED, intelligent to conventional, Elation products continue to be a part of the industry's most exciting projects across the globe and our list of references is always growing.
