

FOR IMMEDIATE RELEASE

25-Sept-2019

Elation Fuze Profile™ 2019 WFX New Product Award winner

A mere two days after winning a PLASA Award for Innovation in London for the Artiste Monet™, Elation Professional stepped to the podium at the WFX Conference & Expo in Orlando to receive a New Product Award in the Moving Light category for the company's new Fuze Profile™.

Elation Sales & Marketing Director, Eric Loader, was delighted with the recognition for a series of new luminaires designed with both creativity and value in mind. He commented, "The Fuze Profile satisfies both the church tech and creative teams looking for performance and inspiration, as well as the church director who wants a quality product at a reasonable price point. The new Fuze line is really the ideal fusion of both and a great fit for the house of worship market. We are extremely pleased that the WFX judges agree."

One of three new fixtures in Elation's popular Fuze™ series, the Fuze Profile is a full-color-spectrum, automated LED moving head with framing designed for precision lighting applications in spaces like houses of worship where beam control and high color quality is important. It features a carefully tuned RGBMA LED array with high CRI and is loaded with design features like zoom, two gobo wheels, animation wheel, frost, prism and full blackout framing system. More on the award-winning Fuze Profile can be found at <https://www.elationlighting.com/fuze-profile>

The 2019 WFX New Product Awards, hosted by Worship Facilities Magazine and Worship Tech Director, were presented at a reception on Wednesday, September 18th at the Orange County Convention Center in Orlando. The New Product Award for Best Moving Light recognizes the best new moving yoke lighting product for churches and was chosen by an independent panel of judges working within the house of worship market. Products were individually judged on multiple criteria including innovation, functionality, cost-effectiveness, competitive advantages, benefits to the end user and benefits to the integrator.
