Elation Launches KL BATTEN: The Next Evolution of Full-Spectrum Linear Lighting

Elation is proud to announce the launch of the new KL BATTEN, the latest addition to its trusted **KL Series**. Designed for today's meticulous lighting designers, the KL BATTEN advances linear lighting with powerful output and exceptional color quality in a rugged, weather-ready design.

Built for stage, broadcast, and outdoor environments, and engineered to simplify setup, the KL BATTEN represents a new generation of full-spectrum linear lighting.

Advanced RGBMA Engine

A 100W RGBMA system delivers smooth, natural light with high CRI (>94) for camera-ready color. The full-spectrum engine combines with customized optics to produce rich, balanced color that looks as true on camera as it does to the eye. The impressively homogenized beam ensures clean, consistent blending across cycs, sets, walls, and scenic elements—making it ideal for broadcast studios, theaters, and House of Worship livestreams.

Color Management

For a more cohesive rig—whether building a new system, upgrading, or expanding an existing one—the KL BATTEN fixtures integrate seamlessly with the wider KL Series to maintain consistent, high-quality color throughout any space.

Fine-tune every look with green/magenta shift, a virtual gel library, and 2400K–8500K color correction for precise white-light tuning. CMY emulation mode supports familiar programming styles, while a dim-to-warm function emulates classic incandescent warmth.

FOR IMMEDIATE RELEASE

High Output

Available in three high-performance models, the KL BATTEN delivers exceptional output for its size. Two integrated accessory slots accommodate lenses and accessories, and each fixture ships with a glare shield and border light filter for added versatility.

KL BATTEN 72 (6 ft): 71,347 lumens

KL BATTEN 48 (4 ft): 46,744 lumens

KL BATTEN 12 (2 ft): 10,981 lumens

Full Pixel Control

Individual pixel control enables designers to create everything from subtle color shifts and fades to complex pixel-mapped effects. Smooth 16-bit dimming curves and a high-speed electronic shutter/strobe provide nuance and impact for dynamic visual designs.

Flexible Mounting & Connectivity

All KL BATTEN fixtures feature integrated L-Track for simple mounting, while end-to-end magnetic alignment ensures precise spacing for clean, continuous linear runs. Comprehensive connectivity includes DMX, Art-Net, sACN, and RDM, along with NFC configuration and Aria X2 wireless DMX for fast setup and reliable wireless control.

Built for Any Environment

A durable, IP65-rated housing protects against dust and water for dependable indoor and outdoor operation, while quiet performance keeps the focus on the production, making KL BATTEN ideal for studios, theaters, and live broadcasts.

From smooth, even coverage on walls, cycs and scenery to bold, high-impact stage looks, the KL BATTEN delivers the color flexibility and brightness needed to anchor any professional lighting design. With extended warranty coverage and dedicated support, KL BATTEN fixtures stay show-ready from prep to curtain call.

The KL BATTEN is available now through authorized Elation dealers worldwide.

About Elation

At Elation, we collaborate with leading professionals in the lighting industry to help bring extraordinary experiences to life. As a designer and manufacturer of a wide range of high-performance entertainment lighting products, we're proud to be a trusted partner to top lighting professionals and rental houses around the world. Our commitment to quality, innovation, and creative solutions has made us a go-to resource in the industry. We also offer an advanced line of lighting control products through Obsidian Control Systems, and a full range of dependable specialty effects called Magmatic. Elation serves clients worldwide through offices in Los Angeles, Mexico City, and the Netherlands. We invite you to take a closer look at elationlighting.com
