Modanso Entertainment of South Africa Chooses Elation Lighting

In order to keep up with increasing demand, Modanso Entertainment of Johannesburg, South Africa, has invested in 42 new lighting fixtures from Elation Professional. The purchase includes 24 DARTZ 360™ beam/spot LED moving heads, as well as 12 Platinum HFX™ hybrid moving heads and 6 Platinum 1200 Wash™ LED moving heads supplied by local distributor The Production Warehouse.

"Moving the company forward and the need to meet international rider requirements at an affordable rate to the client, Elation was the best investment for Modanso Entertainment," said Patrick Paledi, owner of Modanso Entertainment. "The efficient, powerful and easy-to-use Elation lighting was always our choice for stage lighting but was never available in South Africa until two years ago. We couldn't be happier with our investment in Elation and the after-sales support from Production Warehouse."

Modanso Entertainment is one of the leading technical suppliers in Johannesburg and offers turnkey solutions for AV requirements, catering for lighting, rigging, video, audio and more.

"The Platinum 1200s are just beasts!" said Lucky Lewele, head of lighting at Modanso. "The DARTZ are crazy, their infinite pan and tilt is handy for effects and the unit is very light in weight yet powerful." Marnus Nieuwoudt, Director at The Production Warehouse, added, "I'd like to thank Patrick and the Modanso crew for their continued support. I cannot wait to see what the future holds for Elation and Modanso."

The compact beam/spot DARTZ projects a powerful three-degree beam that is comparable to larger discharge lamp fixtures but also houses two prisms and has gobo projection capability. Packed with colors, graphics and effects options, the mid-sized Platinum HFX is a versatile spot/beam/wash moving head that can emit up to 12,000 lumens of power. The Platinum 1200 Wash is
