Obsidian offers 4-part ONYX Training Webinar Series

Obsidian Control Systems is excited to announce a new 4-part webinar series for its popular ONYX Control Platform. Starting January 26th, the webinar series will be presented in an easy-to-follow online format, allowing anyone with or without ONYX experience to get a comprehensive understanding of the powerful software.

The ONYX PC solution is identical to the software provided on all ONYX consoles like the NX4™ and NX2™, providing everyone a true hands-on experience from the comfort of their home. A matching Capture Presentation file provides immediate real-time feedback of a virtual stage, allowing all users to experience the newly introduced support of Fixture and Patch Synchronization between ONYX and Capture.

The webinar, hosted by ONYX Training Specialist David Henry and Product Manager Matthias Hinrichs, will utilize the upcoming 4.6 Version of ONYX, allowing powerful effects using the DyLOS pixel composer, which now not only interacts with color pixels but can drive any fixture's parameter like movements and intensity with incredible ease and creativity.

Each training is 3 hours long and will start at 10:00 am PST (18:00 GMT):

January 26 – Beginner
January 28 – Intermediate
February 2 – Advanced
February 4 – DyLOS Pixel Composer

To sign up, please visit <https://www.eventbrite.com/e/137357384635/>

About Obsidian Control Systems

Obsidian Control Systems is an accessible line of advanced yet intuitive lighting control products for professionals. Refined by passion, Obsidian Control Systems combines over 25 years of experience developing professional entertainment lighting control solutions for automated and theatrical lighting fixtures. Obsidian lighting control software and hardware is easy to use and accessible to every level of user, whether a novice programmer or a designer at the highest level. All Obsidian lighting control systems run innovative ONYX™ lighting control software, a powerful yet easy-to-learn lighting control platform designed for both hardware consoles and PC systems. Obsidian Control Systems products are distributed exclusively by Elation Professional worldwide and are available in various sizes to accommodate any scale and budget. Visit the Obsidian Control Systems website at www.obsidiancontrol.com to learn more.
