## Obsidian Control Systems introduces NETRON™ data distribution range at InfoComm 2019

Obsidian Control Systems is pleased to preview a new and comprehensive data distribution range of products at InfoComm 2019, **NETRON™**. NETRON encompasses Ethernet to DMX gateway, DMX splitter and DMX/RDM splitter solutions, supporting applications from live production and venue installations to architectural environments.

NETRON products have been developed with the user in mind, combining tough hardware with smart software for fast setup and solid performance. Rugged, reliable and easy to configure, NETRON offers smart solutions for professional lighting and AV markets.

Obsidian Control Systems will be showing the new NETRON range June 12-14 at **InfoComm Booth #7443**. Designers, programmers and operators are invited for a first look.

The NETRON range offers three Ethernet to DMX gateways, the rackmount twelve-port EN12, the EN4, and the ultra-compact POE-powered EP4. All devices support sACN, Art-NET, RDM and offer web remote configuration, while internal presets for the most common uses offer plug-and-play deployments.

Three variants of RDM splitter round out the range; two compact splitters with six XLR (RDM 6XL) or RJ45 (RDM645) connections, plus the RDM 10, an advanced ten-port dual-input splitter combined with a two Universe EtherDMX gateway.

### About Elation Professional

Elation designs and manufactures a comprehensive range of innovative lighting and video products known for their excellent efficiency and outstanding performance.
