## Obsidian to Showcase Cutting-Edge ONYX Lighting Control Innovations at ISE 2025

The Obsidian Control Systems team is excited for ISE 2025 in Barcelona, where lighting control experts are eager to share insights into how the ONYX platform can elevate professional lighting control across a wide range of projects.

Lighting designers, programmers, and operators are increasingly discovering the benefits of the rapidly growing Obsidian lighting control brand. From February 4 to 7, they are invited to explore its latest innovations at **Booth 6R700** at Fira de Barcelona.

Visitors to ISE can demo Obsidian hardware and PC systems, including the NX1 and NX2, compact yet full-featured lighting consoles that have propelled the ONYX platform's popularity to new heights.

Obsidian's popular and award-winning NETRON data distribution devices will also be featured, including a comprehensive line tailored for system integrators and fixed installations, plus the world's first IP65-rated devices for entertainment signal distribution.

Don't miss this opportunity to explore the latest advancements in lighting control technology, exchange insights, and network with industry professionals. Whether you're a seasoned pro or just starting out, we invite everyone to stop by **Booth 6R700** for a talk and a hands-on demo.

**About Obsidian Control Systems**

Obsidian Control Systems is an accessible line of advanced yet intuitive lighting control products for professionals. Refined by passion, Obsidian Control Systems combines over 30 years of experience developing professional entertainment lighting control solutions for automated and theatrical lighting fixtures. Obsidian lighting control software and hardware is easy to use and accessible to every level of user, whether a novice programmer or a designer at the highest level. All Obsidian lighting control systems run innovative ONYX™ lighting control software, a powerful yet easy-to-learn platform for hardware consoles and PC systems. Obsidian Control Systems also offers a complete line of NETRON™ data distribution products. Obsidian products are distributed exclusively by Elation worldwide and are available in various sizes to accommodate any scale and budget. Visit the Obsidian Control Systems website at [www.obsidiancontrol.com](http://www.obsidiancontrol.com) to learn more.
