When LED Power is Needed the Elation Platinum 1200 Wash™ Delivers

Brightest LED wash light to date from Elation Professional produces color washes on par with 1500W discharge fixtures

Elation Professional is pleased to announce launch of the Platinum 1200 Wash™, an extremely bright LED color wash moving head luminaire with (19) 65W multi-chip RGBW LEDs, making it Elation's brightest wash light offering to date. The Platinum 1200 Wash produces color washes on par with 1500W discharge fixtures and houses a host of professional features like a 5° to 50° motorized zoom for tight to wide beam angle control.

The fixture comes with a selection of linear color temperature presets from 2,700 - 8,000K, which combined with the RGBW color mixing possibilities and powerful 19 x 65W LED engine, make for an extremely flexible color wash luminaire capable of powerful and smooth color shade projections across any surface.

A variety of unique effects are possible using the fixture's pixel and pixel ring control with color pixel ring macros, color preset macros and chase macros included when programming time is limited. The fixture also offers linear dimming with selectable dimming curves and high-speed electronic strobe.

The Platinum 1200 Wash is an ideal all-purpose power wash light for stage applications and can be used in TV and other broadcast productions thanks to its flicker-free operation. It also includes high-efficiency low-noise cooling and movement control systems that make it an appropriate choice for noise sensitive environments. LED refresh rate frequency (900-25,000 Hz) and Gamma brightness (2.0, 2.2, 2.4, 2.8) are also adjustable.

The Platinum 1200 Wash's versatility extends to its operation with a variety of programming options available. Controllable via three DMX channel modes, the fixture can also be controlled using KlingNet™ or Art-Net and is RDM (Remote Device Management) ready. The unit features a full-color menu display with a six-button touch control panel that is 180-degree reversible. Professional grade 5-pin XLR DMX in/out and PowerCON TRUE1 in/out connections are included as is a multi-voltage universal auto switching power supply.

The Platinum 1200 Wash offers all the benefits of LED like greater reliability, less maintenance and increased energy efficiency for a lower cost of ownership and its long life LEDs will rarely if ever need replacing.
