## **Elation's New Protron 3K a High-Impact, High Value LED Strobe**

The Protron 3K from Elation Professional is a new high-powered LED strobe light that not only packs a powerful punch but provides a much better ROI compared to other conventional 3K Xenon strobes on the market.

Capable of blasting out 80,000 lumens of power from 200 x 3W cool white LEDs, its energy-efficient design and affordable price tag make it an attractive choice for all types of applications from stage and studio to nightclubs and more. Compact and lightweight at only 17.2 lbs. (7.8 kg), the Protron 3K delivers the same output as Xenon strobes but uses much less power (peak power output is 900W) with high or low power mode options.

Utilizing special optics and new LED driver technology, the Protron 3K includes built-in effect macros like burst, pulse and lighting for unique effects possibilities and can even operate FULL ON without causing thermal-out issues thanks to regulated silent cooling fans that keep the Protron 3K from overheating.

The Protron 3K comes in a robust housing and includes electronic dimming for full output control. Other benefits include a long average LED life of 50,000 hours, greater reliability and less maintenance compared to traditional Xenon strobes.

The Protron 3K is controllable via 4 DMX modes (1 / 2 / 3 / 4 channels) for a variety of control options and a host of features come standard like 3 and 5-pin DMX In/Out and powerCON In/Out connections with included PowerCON cable. A 4-button control panel with LCD menu display makes for easy navigation through DMX and manual settings and an auto-sensing power supply allows the Protron 3K to operate anywhere in the world.

### **About Elation Professional**

Elation Professional is one of the world's leading lighting and visual solutions providers and is the global brand of Elation Lighting. Founded in 1992 and headquartered in Los Angeles, with European sales, distribution and support based in The Netherlands, Elation designs and manufactures a comprehensive range of innovative yet affordable lighting and video products that are distributed through a global network of dealers and distributors. Made up of a spirited team of dedicated personnel, Elation is setting new efficiency and performance standards in Platinum lamp and LED technology and is acknowledged for a comprehensive commitment to Total Support.
