

FOR IMMEDIATE RELEASE

04-Mar-2016

Elation RDMX6S™ an Easy-to-use RDM/DMX Data Splitter

Elation Professional now offers the RDMX6S™, an easy-to-use 6-way RDM/DMX data splitter useful in maintaining proper data levels over long runs or several runs of RDM or DMX signal.

The RDMX6S helps to correct disruptions in the signal by splitting the DMX/RDM data link into six separate branches while boosting the weak signal to its original output level before it becomes too low.

RDM E1.20 compliant, the RDMX6S features opto-isolated DMX output ports with DMX loop through port with built-in termination. It houses 5pin XLR input, a 5pin XLR thru output, (6) 5pin XLR outputs and powerCON In connection.

Wrapped in a rugged die-cast aluminum housing, a single-unit mounting bracket is included for truss/clamp installation and optional single and dual unit rack mount kits are available. Compact at 6.8 x 6.7 x 2.9 inches (173 x 170 x 74 mm, L x W x H) and light at 2.1 lbs. (1.0 kg), the unit's universal multi-voltage auto switching power supply allows it to be used anywhere in the world.

About Elation Professional

Elation Professional is one of the world's leading lighting and visual solutions providers and is the global brand of Elation Lighting. Founded in 1992 and headquartered in Los Angeles, with European sales, distribution and support based in The Netherlands, Elation designs and manufactures a comprehensive range of innovative yet affordable lighting and video products that are distributed through a global network of dealers and distributors. Made up of a spirited team of dedicated personnel, Elation is setting new efficiency and performance standards in Platinum lamp and LED technology and is acknowledged for a comprehensive commitment to Total Support. As a company in expansion with a presence in a growing variety of market segments, chances are you've experienced Elation lighting at a concert, special event, TV, theater, late night venue, House of Worship, theme park, cruise ship, exhibition, architectural space or elsewhere.
