## Elation SixPar Series – Expanding Color Options for PAR Color Changers

Elation Professional's new SixPar Series of indoor and outdoor PAR color changers features a revolutionary 6-color LED multi-chip that provides an expanded palette of colors, including stunning ambers, true whites and even ultraviolet. Useful for production applications or installations as a wash light, uplight, wall wash, truss warmer and more, the SixPar's high-power single lens RGBWA+UV LEDs provide a creative color boost to the lighting designer toolbox.

Available in four versions – SixPar 100 (indoor), SixPar 100IP, SixPar 200IP and SixPar 300IP, with 7, 7, 12 and 18 x 12-watt LEDs respectively – all luminaires in the series are wrapped in a rugged die-cast aluminum housing and feature 15° beam and 25° field angles.

All SixPar luminaires house an electronic strobe and are capable of smooth dimming from 0-100% with excellent stability throughout the range. They also include a selection of dimming curves, as well as color and chase macros. All fixtures in the series operate flicker free for use in TV and film applications and an adjustable dual yoke / floor stand allows them to be either rig mounted or stand

on the floor. Users can easily power and data link multiple fixtures together for quick installation.

The SixPar Series is DMX controllable and RDM ready and is equipped with an IR remote control option. A 4-button touch control panel and LCD display provide for easy hands-on programming with easy-to-read fixture menus and messages. An auto-sensing power supply covers worldwide voltages and frequencies allowing the fixtures to operate anywhere in the world.

The SixPar Series offers all the benefits of LED like greater reliability and less maintenance and consumes little power for a lower cost of ownership. With a long LED life rating of 100,000 hours, service intervals are few and far between and like all Elation fixtures the SixPar Series is covered by Elation's 2-Year Warranty and Total Support.

### About Elation Professional
