TSL Lighting invests in Elation Paladin™

TSL Lighting in the UK has invested in Elation Professional's [Paladin Cube™](#), a compact LED floodlight with IP65 protection that marks the company's first purchase into Elation's extensive product range.

TSL (www.tslighting.com) is a premier stage lighting company that operates across the UK and beyond. In operation since 2006, the company provides quality lighting, rigging and design for a wide range of live events, working from a state-of-the-art facility and warehouse in Basingstoke.

“We chose the Paladin Cube for its size, shape, output, availability and price,” stated TSL Managing Director Sam Tamplin. “We’re happy with it and think it’ll be a good little workhorse fixture for us indoors and outdoors.”

The Paladin Cube is a compact LED floodlight with IP65 protection that has versatile use as a wash light, blinder/strobe or eye candy effect. It houses nine 15W RGBW cells for a full spectrum of color options, including high-impact white light, and features multiple pixel zone control.

Measuring a small 249 x 199 x 140 mm and weighing just 4.75kg, output for such a compact unit is surprising at 3,200 lumens. Completely noiseless, it can work discreetly in any set or stage. An included diffuser softens and spreads the light while a range of optional diffusers, barndoor and shader add to its possibilities.

After arranging a demo through Elation's exclusive UK distributor, Entedi, TSL chose the unit and immediately sent them out on an outdoor winter walk project. “Cally and the Entedi team were great in organizing demos and managing the purchasing process during a difficult time,” Tamplin says.

FOR IMMEDIATE RELEASE IMMEDIATE RELEASE

Drawing only 120W of max power, the Paladin Cube's small footprint and energy efficiency complements well TSL's reputation as an advocate of environmentally friendly initiatives and sustainable practices.

About Elation Professional

Based in California with facilities in Florida and Mexico City, as well as European offices in The Netherlands, Elation designs and manufactures a comprehensive range of innovative lighting products known for its superior performance, excellent efficiency, and outstanding price: value ratio, all backed by a hard-earned reputation for Total Support. Elation also offers an advanced line of lighting control products through Obsidian Control Systems, as well as a full range of dependable specialty effects called Magmatic. Our mission has always been simple: to provide best-in-class products and service while offering the best value: performance ratio in the industry. Elation products continue to be a part of the industry's most exciting projects across the globe. We invite you to take a closer look at www.elationlighting.com
