

FOR IMMEDIATE RELEASE

11-Aug-2016

Elation's ZCL Series™ of ACL-type Effects with Zoom Now Available

Elation Professional's new ZCL Series™ of high-output ACL-type LED effect lights with zoom is now available. First shown at the Prolight + Sound trade show in April, ZCL Series fixtures combine a high-power RGBW multi-chip with a 4° to 44° zoom that gives dynamic effect lighting an added degree of flexibility. The high performance Zooming Collimator Lens system produces a homogenized 4° color-changing beam from each lens. Strobe effects and full-range electronic dimming with dimming curve effects add to the design possibilities.

Perfect for high-performance effect lighting for stages and night venues, the ZCL Series consists of the **ZCL 360 Bar™**, a versatile continuous rotation moving bar effect luminaire with zoom; the **ZCL 360i™**, a single-beam continuous rotation moving effect luminaire with zoom; and the **ZCL BAR Z300 IP™**, a versatile IP65-rated bar effect luminaire with zoom.

ZCL 360 Bar™

The new ZCL 360 Bar™ is a versatile moving bar effect luminaire with zoom featuring five individual 60W RGBW LEDs and the new advanced collimator optic lens. It features fast and precise 16-bit continuous 360° pan and tilt rotation and houses DMX and power in/out connections along with a 7-button control full color 180° reversible menu display.

ZCL 360i™

The new ZCL 360i™ is a single beam moving effect luminaire with zoom featuring a single 90W RGBW LED and the new advanced collimator optic lens. It features fast and precise 16-bit continuous 360° pan and tilt rotation and houses DMX and power in/out connections along with a 7-button control full color 180° reversible menu display.

ZCL Bar Z300 IP™

The new ZCL Bar Z300 IP™ is a versatile IP65-rated bar moving effect luminaire with zoom featuring five individual 60W RGBW LEDs and the new advanced collimator optic lens. It houses IP-rated DMX and power in/out connections along with an LCD menu display with four touch button control panel. A frost filter and glare shield is included when the moment calls for an even softer wash effect and the fixture comes with an adjustable yoke / floor stand.

Common Features

All fixtures in the ZCL Series can be controlled via multiple DMX channel modes and are RDM protocol ready (Remote Device Management). Multiple unit power linking makes for quick installation and customizable setups. All ZCL Series units operate flicker free for use in TV and other broadcast applications and an auto-sensing power supply covers worldwide voltages and frequencies. The ZCL
